

~~CONFIDENTIAL~~

OIT 0212-87
16 April 1987

MEMORANDUM FOR: Deputy Director for Administration

FROM: Edward J. Maloney
Director of Information Technology

SUBJECT: Weekly Report for Week Ending 17 April 1987

25X1 *1. OIT personnel are providing technical assistance in the
interagency investigation [redacted]
The OIT representatives are developing a PC database for use as an
automated reference to the chronology of events, assessment of
25X1 damage, and prosecution. OIT is also helping the group to make
the database accessible to each of the agencies participating in
the investigation. [redacted]

25X1

25X1 *Items of special interest [redacted]

~~CONFIDENTIAL~~

CONFIDENTIAL

25X1 4. The Acting Archivist of the United States provided a tour and briefing at the National Archives Building for the Director of Information Technology. The briefing was on hardware/software systems development activities at the National Archives and Records Administration. [redacted]

25X1 5. The Director of Information Technology met with the Director of the Information Security Oversight Office of the General Services Administration to acquaint him with the merger of the Agency's Information Resources Management Program with OIT. The meeting underscored OIT's intention to maintain a strong commitment to classification management and information security. [redacted]

25X1 6. OIT and OIR personnel met recently with representatives of DIA to discuss the value of establishing customer support services. The outcome of the meeting was an invitation to brief DIA executive managers on 23 April about our respective roles and the services we provide throughout the Agency. [redacted]

25X1 9. As noted in last week's report, the Headquarters Message Automated Exchange (MAX) was officially retired on 9 April. During the retirement ceremony, the final message to transit MAX read in part:

25X1 "Following 6,424 days and 149,801,168 transmissions, the operational readiness of the MAX II system became history on 9 April 1987.... The system served us well throughout its tenure in our expanding network, and was modified and upgraded to reach limits far beyond its original design. Like that favorite pair of jeans, MAX didn't wear out or give out with age, we simply outgrew it." [redacted]

25X1 [redacted]
